

# ULTRABIG M&I

The Ultimate in High Speed Rubber Doors

## ▶ BIG AND TOUGH

The UltraBig M&I is built for large door openings located in harsh environments.

## ▶ SPEED

The UltraBig M&I opens at speeds up to 12" per second.

## ▶ WIRELESS SAFETY SYSTEM

Albany's patent pending Wireless Safety System eliminates costly repairs and downtime associated with coil cords.

## ▶ PANEL MATERIAL

Two layers of thick SBR and polyester fabric provides superb durability and has a lifetime warranty.

## ▶ CONTROLS

Programmable Logic Controller (PLC) control system is customizable and reliable.

## ▶ WIND RESISTANT

Patented Windlok design enables the UltraBig M&I to resist high wind pressures.

## ▶ TRUCKGUARD SAFETY SYSTEM

Intelligent safety light system eliminates contact with objects in the doorway. (Optional)

## ▶ COUNTERBALANCED DESIGN

Albany's counterbalanced design uses torsion springs, and a double chain and double sprocket drive system for smooth operations.

Albany Door Systems' UltraBig M&I Re-Coil-Away, "The World's Toughest High Speed Rubber Door", is designed for door openings over 30' x 30'. This big and tough door provides dependable performance in the most rugged industrial applications. The heavy duty side frames, thick rubber curtain and patented windlok design form a near airtight seal and can resist high wind pressures. The UltraBig M&I is designed to last. It is durable, safe, low cost to maintain and can take a hit.

# ULTRABIG M&I

Albany's UltraBig M&I high speed rubber doors are fast, built to last, and engineered to cycle hundreds of thousands of times.

NOTE:

\* INDICATES A RANGE OF SIZES. THE FINAL DIMENSION DEPENDS ON FINAL DOOR SIZE. FOR MORE INFORMATION CONTACT THE MANUFACTURER.

## Counterbalanced Design

Albany's counterbalanced design uses torsion springs, and a double chain and double sprocket drive system for smooth operations.

## UltraStrong Curtain

The thick two layer SBR and high tensile strength polyester fabric provides superb resilience in harsh environments and has a lifetime warranty.

## TruckGuard Safety System (Optional)

Intelligent safety light system eliminates contact with objects in the doorway. Mounted on the side guides, Albany's light system prevents activation due to curtain wind deflection.

## Patented Continuous Windlok Design

Albany's continuous windlok design produces near airtight seals and delivers more resiliency against damage, extreme weather conditions and high windloads.

## Heavy Duty Construction

Heavy duty 1/4" structural steel side columns and header. No aluminum.

## PLC Controller

Programmable Logic Controller (PLC) control system is customizable for a wide range of applications and offers reliable performance in harsh conditions.

## Wireless Safety System

Albany's patent pending Wireless Safety System eliminates costly repairs and downtime associated with coil cords.
