

Albany Door Systems Governmental Protection Mission Statement

Albany Door Systems supports the Department of Homeland Security (DHS), the Department of Defense (DOD), and the Defense Threat Reduction Agency (DTRA) initiatives by securing people and structures to the highest levels possible. Our mission is to provide door solutions for security and access control to the Federal government. ADS supplies High Performance Doors that enhance security, control vehicle and environmental access, increase energy savings and decrease maintenance costs. We supply service and maintenance programs through our certified National Dealer Program to ensure product quality and performance while adhering to our Rapid-Response Initiative.

Rapid-Response Initiative

Albany Door Systems has processes and procedures that augment the GSA procurement system. Albany door products are purchased directly through the GSA advantage, schedule or contract and also through approved General Contractors. Project flow is controlled by our Contract Administrator and Regional Managers and installation is performed by our certified Dealer Partners. This project management process enables us to streamline procurement, ensure consistency and develop custom high performance door solutions with quicker response times to ensure customer satisfaction.
